

Dear Caregivers:

This message is to inform you that there are multiple suspected cases of COVID-19 at [CAMP NAME]. The suspected cases are all from the same camp unit (POD) and the entire unit and any direct contacts have been sent home. The families affected by this potential exposure have been notified. The remaining Girl Scouts and camp staff have not had contact with the other unit and will stay at camp. Staff will continue to monitor the situation.

Consistent with the Centers for Disease Control and Prevention (CDC), state and local guidelines, all facilities are regularly cleaned and sanitized. In addition, we continue to follow all local, state, and federal health and safety directives, including wearing face coverings, hand washing/sanitizing, social distancing, self-screening, and cleaning/disinfecting.

All the best,
Ian Brown
Director of Outdoor Programs
