

Air Rifle and BB Gun Permission Form

Girl Scouts Western Pennsylvania's (GSWPA) air rifle and BB gun program is designed to enrich and educate Girl Scouts across the council on the responsible handling and use of air rifles and BB guns. GSWPA's air rifle and BB gun program comprises of three main components: proper handling and usage, range safety, and discipline.

Each of these components are paramount to participation in any shooting sport. Participants are oriented to each topic prior to the start of each air rifle or BB gun session. Proper handling and usage, range safety, and discipline are reinforced by the facility's range safety rules, spoken commands, and monitoring by the instructor.

All GSWPA instructors of the air rifle and BB gun program are trained and certified National Rifle Association Range Safety Officers or Rifle Instructors. The National Rifle Association is the nation's leading organization on gun safety education and youth shooting sports.

I hereby give my permission for my child to participate in all facets of the air rifle and BB gun program with Girl Scouts Western Pennsylvania.
